MIDDLE SCHOOL LIFE SCIENCE

Kendall Hunt Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.

PREVENTION, RECYCLING & CONSERVATION: CONSERVATION GR. 5-8

Classroom Complete Press **This is the chapter slice "Conservation" from the full lesson plan "Prevention, Recycling & Conservation". Prevention, Recycling & Conservation initiatives are explored in a way that makes them easier for students to understand. What is conservation, what are natural, renewable and non-renewable resources? We also look at methods used to reduce the landfill waste by composting along with how organic materials are broken down. Written to grade and using simplified language and vocabulary we discover prevention methods for waste and pollution contaminating fresh water resources along with prevention initiatives caused by burning fossil fuels which pollute the atmosphere causing smog, depleted ozone and greenhouse gases. As well we introduce alternative fuels, zero waste goals and sustainable living methods. Our resource is comprised of ready-to-use reading passages, student activities, test prep, and color mini posters for remedial students. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy.**
