2012 GCSE ENGLISH RESULTS

FIRST REPORT OF SESSION 2013-14, REPORT, TOGETHER WITH FORMAL MINUTES, ORAL AND WRITTEN EVIDENCE

Stationery Office The 2012 GCSE English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007-09 development phase of the qualification- in particular the turbulence which resulted from the shift away from a mostly linear to a modular system, combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time, but these were not acted upon by the regulator (the then-interim Ofqual). Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The current status of Ofqual, as an independent regulator accountable to Parliament, is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels, to a tight timetable and at the same time. Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland, without careful reflection on what might be lost, or consensus that this is the right thing to do.

HIGHER EDUCATION

STUDENTS AT THE HEART OF THE SYSTEM

The Stationery Office This White Paper sets out the government's policies for the reform of higher education. The reforms seek to tackle three challenges (i) Putting higher education on a sustainable footing; (ii) Seeking to deliver a better student experience - that is, improvements in teaching, assessment, feedback and preparing the student for the world of work; (iii) Pushing for higher education institutions to take more responsibility for increasing social mobility. The Paper is divided into six chapters, with an annex. Chapter 1: Sustainable and fair funding; Chapter 2: Well-informed students driving teaching excellence; Chapter 3: A better student experience and better-qualified graduates; Chapter 4: A diverse and responsive sector; Chapter 5: Improved social mobility through fairer access; Chapter 6: A new, fit-for-purpose regulatory framework. By shifting public spending away from teaching grants and towards repayable tuition loans, the government believes higher education will receive the funding it needs whilst making savings on public expenditure. The reforms aim to deliver a more responsive higher education sector in which funding follows the decisions of learners and successful institutions are freed to thrive. Also, creating an environment in which there is a new focus on the student experience and the quality of teaching and in which further education colleges and other alternative providers are encouraged to offer a diverse range of higher education provision. The Government, through the Office for Fair Access (OFFA), will be introducing a National Scholarship Programme and will also increase maintenance grants and loans for nearly all students. New Technology Innovation Centres will also be rolled out followed by publication of an innovation and research strategy, exploring the roles of knowledge creation, business investment, skills and training.

LIFESTYLE JOURNALISM

[Routledge](#) Lifestyle journalism has experienced enormous growth in the media over the past two decades, but scholars in the fields of journalism and communication studies have so far paid relatively little attention to a field that is still sometimes seen as "not real journalism". There is now an urgent need for in-depth exploration and contextualisation of this field, with its increasing relevance for 21st century consumer cultures. For the first time, this book presents a wide range of studies which have engaged with the field of lifestyle journalism in order to outline the various political, economic, social and cultural tensions within it. Taking a comparative view, the collection includes studies covering four continents, including countries such as Australia, China, Norway, Denmark, Singapore, the UK and the USA. While keeping the broader lifestyle field in mind, the chapters focus on a variety of sub-fields such as travel, music, food, health, fashion and personal technology journalism. This volume provides a fascinating account of the different facets of lifestyle journalism, and charts the way forward for a more sustained analysis of the field. This book was originally published as a special issue of Journalism Practice.

EUROPEAN CONSUMER LAW (PAPERBACK)

[Intersentia](#) Now available in paperback! European consumer law is the core of European civil law. In recent years, it has been subject to spectacular decisions by the Court of Justice of the European Union (CJEU), with significant consequences for Member States' law. This thoroughly updated second edition follows and analyzes this process in such important areas as unfair commercial practices, unfair terms, cross-border consumer protection, and product liability. The very concept of consumer and consumer protection has been subject to intense debate. Does European law limit itself to the 'informed consumer standard,' or should the 'weaker' or even the 'vulnerable consumer standard' be given more attention? There has been legislation in the area of consumer rights in distance and off-premise contracts and, very recently, consumer alternative dispute resolution and online dispute resolution. Other projects are still in the pipeline, e.g. mortgage credit, while other projects are subject to heated controversy, namely the proposed optional Common European

Sales Law, which will affect consumer law. The original team of authors-Hans W.-Micklitz, Norbert Reich, and Peter Rott-have been strengthened by the addition of Klaus Tonner. They have worked together to take a broad horizontal approach to the European consumer law acquis, thereby reflecting on the history, achievements, recent trends, and shortcomings of European law in this important field of law. The change from 'minimum' to 'full' or 'targeted harmonization' is critically analyzed, and the central role of the CJEU is documented and emphasized. (Series: Ius Communitatis, Vol. 5) [Subject: European Law, Consumer Law, Civil Law]

A PASSAGE TO AFRICA

Hachette UK As a five-year-old, George Alagiah emigrated with his family to Ghana - the first African country to attain independence from the British Empire. **A PASSAGE TO AFRICA** is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even though the book is full of uncomfortable truths. It is a book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives **A PASSAGE TO AFRICA** its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.
